

ACCURATE & RELIABLE TRAFFIC DATA

ACS-GREENWAY

Greenway and ACS have teamed up ready to handle your traffic data collection needs. Our partnership ensures reliable service every step of the way. You can count on us to deliver timely and quality results.

WE OFFER

We understand your need for fast and reliable traffic data. Our expertise and experience in traffic data analysis and modeling ensures our results are tailored to meet your needs.

Accurate Data

- Stringent quality control standard
- Bird's eye view videos of the roadway or intersection

Reliable Local Expertise

- Prequalified transportation consultants by MnDOT and Hennepin County
- Certified DBE (Disadvantaged Business Enterprise), TGB (Targeted Group Business) and SBE (Small Business Enterprise) firms.

Cost Effective

- Saving time & money up front and over time
- Video files in .mp4 format, allowing for spot checking and traffic observation

Innovative Technology

- All-weather video system, tested for deployment in harsh weather conditions
- Non-intrusive technology – our detection systems are not affected by changes to the road
